## MESSAGE FROM MR PLIM

Dear Parents and Carers,

"And it's lights out and away we go!"

What an exciting and memorable week it has been here at school! We have been incredibly busy, with two standout events that the children have absolutely loved.

Today of course we managed to hold our annual Sports Day, and what a fantastic day it has been! A VERY mixed week of weather kindly held for us today, and all our children took part with enthusiasm, determination, and excellent sportsmanship.

I love seeing the children supporting one another on Sports Day, celebrating each others' achievements, and trying their very best in every event. From the sprints to filling up the water buckets to earn points for their house team, the energy and positivity on show throughout the day was truly inspiring. A huge thank you to Mrs Tranter and Miss Humphries for their organisation of the day, our wonderful 'Bronze Ambassador' Year 6s, the PTA for selling refreshments and all staff for ensuring it was such a smooth and enjoyable event. A big thanks to you as parents and carers for coming along and supporting the children - your presence and encouragement made the day even more special.

However, the BIGGEST thank you to the children - your effort and attitude made us very proud!

Our second exciting event of the week took place yesterday, when we were thrilled to welcome Chloe and Maria from the Silverstone Museum 'STEM Outreach Team' into school for a truly unforgettable experience. The day began with a whole-school assembly that captured everyone's imagination. The children then had the incredible opportunity to see and handle: a real Formula 1 chassis, authentic F1 tyres, race suits worn by drivers and components from a Formula 1 engine!

The excitement was palpable as Chloe and Maria shared insights into engineering, design, and the science behind Formula 1 racing. With a focus on the skills of 'resilience and bravery', 'teamwork' and 'creativity', after the assembly, pupils from Year 2 upwards took part in hands-on workshops, where they: tried on race suits and helmets, practically explored how tyres perform in different weather conditions and investigated the materials used in F1 equipment. And, perhaps the highlight for many, they also had the chance to sit inside a Formula 1 car! It was a truly inspirational experience, sparking curiosity and enthusiasm for science, technology, engineering, and maths. We hope it has inspired some future engineers and designers!

Both events truly demonstrate the spirit of our school community. From the teamwork and resilience shown on Sports Day to the curiosity and excitement during yesterday's Formula 1 visit, our pupils have been outstanding. Thank you for your continued support in helping them thrive.

Enjoy your weekend!

Mr Plim

# Focus On SEND

This week I have returned to my SEND role after a period of absence and it has been really lovely to be back. Whilst I am having to take things steadily and will not be working 'full time' for a while, I have had the opportunity to meet all of the children who have joined our school in the past term and a half as well as getting around each Key Stage 1 class and starting to familiarise myself again with each class' routines and needs.

I have also liaised with the SENCO at Oldbury Wells and will be discussing the transition of some of our children who will need extra support when they arrive at secondary school and look forward to doing the same with Bridgnorth Endowed and Lacon Childe.

I am looking forward to getting 'up to speed' as soon as possible so please do not hesitate to contact me if I can help in any way on

Have a lovely weekend,

Mrs Williams
